

The Manhattan DD Council Children's Committee invites you to hear:

ALL ABOUT THE TOILET

A Presentation by Dr. Fredric Daum, MD

Dr. Daum will explore successful toilet-training methods for parents who still have problems with their children's toileting.

Dr. Daum has been active in the field of Pediatrics for over 45 years, having received a B.A. from Harvard University, an M.D. from the Tufts School of Medicine, and an Honorary Master of Arts Degree from Yale University in 2005. Throughout his distinguished career, he has been presented with several Honors and has published related articles for over 25 years.

So, if your special needs child/children experience problems with a variety of toilet-training issues, this Session will address the salient issues that hamper a successful transition away from "the diaper"!
